

Syd's Broken Hearts Club Arrives

Syd's *Broken Hearts Club* is the five-year follow-up sophomore album from The Internet's frontwoman. *Fin* was her slinky debut that touted confidence, seduction and self-confessional in the lyrics. She released the *Always Never Home* EP in 2017. *Broken Hearts Club* is much more vulnerable with its singular romantic focus. The 13-song project follows the emotional trajectory of heartbreak inspired by a personal relationship that ended during the pandemic. The ups and downs of love are expressed in stages with each song. Collaborators include Lucky Daye, Smino and Kehlani. Syd is mournful of her lost love but ultimately philosophical and whole at the end of the breakup. She has already announced the Broken Hearts Club tour dates and [tickets](#) are still available.
