

Ari Lennox's Hoodie Has A Visual

Ari Lennox's "Hoodie" has a video and it is building excitement for her sophomore album. Whether she is walking through a warehouse, grocery store or sitting on a cube she oozes seductiveness. "Hoodie" is an inside joke about the absence of monogamy and her reaction to this revelation is a lighthearted disappointment. It's been three years since her *Shea Butter Baby* debut album and almost a year since her single "Pressure." The Dreamville artist also appeared on the label's *D-Day: A Gangsta Grillz Mixtape* during the spring. "Hoodie" is on the tracklisting for her *age/sex/location* album coming out on September 9th.
