

Full Crate Has Money Issues

Full Crate decides to address a very familiar topic with his single "Money Issues." The producer's soft touch to such a heavy concern lessens the stress with a cheerful bassline and an intermittent synthesizer. Full Crate stated his reason for the new song in a press release:

"I wrote this song as an anthem for everyone that knows what it's like to have money issues.

I was frustrated that no matter how much I made I'd still feel like I got money issues.....I was tired of feeling broke..."

"Money Issues" follows ["The Process"](#) video he released a month ago. The artist is going on his So Far From Home tour in May which is his first European trek. [Tickets](#) are on sale now.
