

Thundercat & Tame Impala's No More Lies Limited Vinyl Release

Thundercat and Tame Impala's "No More Lies" is going to be released on limited edition 7" vinyl. The single which came out three months ago was the first time the duo worked together in more than three years. The harshly honest track about being a selfish and less-than-ideal partner has Thundercat's dark humor and is the sum of both artists' expansive jazz fusion and pop worlds. The announcement of the vinyl single comes just days before Thundercat's In Yo Girl's City Tour which kicks off August 27th right after his appearance at the Newport Jazz Festival on August 5th. The tour has dates in North and South America and tickets are available via Thundercat's official site. The "No More Lies"

special vinyl release can be [pre-ordered](#) now before the September 29th release date.
