

**Keke Wyatt Announces  
Certified, Her First Album In  
Almost A Decade**

Keke Wyatt's *Certified* is her sixth album and first in seven years. The title track is a sultry bedroom bop written by Wyatt with Kissie Lee, Elvis Williams, and Alphonso Crawford.

Wyatt's sensuous vocals invites her lover to intimacy with feelings much stronger than lust. The control and emotional depth that fans expect in her singing is still there making the song's title a testament to her personal desires and her artistry. Seven years ago she released *Keke Covers* and gave new life to a collection of classic songs. *Certified* marks her return to the Shanachie label of which she is elated to be working with again. "I really feel good about signing with Shanachie!" shares Keke. "I'm excited and finally ready. I feel like this time we will create magic together and make HISTORY!"

*Certified* has eight original songs and one cover all produced by Blac Elvis known for his work with Usher and Beyoncé. The album comes out June 28th just in time to give her passionate fanbase a chance to make summer memories with her new music. In the meantime, Wyatt keeps fans engaged on her popular social media channels with her everyday life.
