

Fishbone Make The Last Call In America With George Clinton

Watch Fishbone's video for "Last Call In America" featuring George Clinton. The single is a critique of Trump's America sandwiched in between their ska-based swag. "Last Call In America" is on their forthcoming album, *Stockholm Syndrome*. The Fishbone EP came out in 2023 and the last full-length album was *Still Stuck In Your Throat*, released in 2006. Frontman Angelo Moore has been busy making music with The Brand New Step and displaying his paintings. The new song is the second preview from the next project, following the first single, "Racist Piece Of Shit." *Stockholm Syndrome* comes out on June 27th.
