

Solomon Fox & Amaria Link On Fallin' Back

Credit: Demarquis McDaniel

Solomon Fox and Amaria have connected for the endless groove that is “Fallin’ Back.” Together they express the hazy feelings of a love that continues to pulse despite previous efforts to separate. Fox wrote and produced “Fallin’ Back” in his bedroom and has included the single on his debut album, *Sweettooth*. It was a five-year journey to arrive at *Sweettooth*, with Fox racking up collaborations with Thundercat, Smino, Duckwrth, and more as he continued to work on his solo music. Amaria and Fox make a gentle duo surrendering to love with soulful whispers inside the single that epitomizes Quiet Storm radio. *Sweettooth* emerges in October with appearances from Duckwrth, Mai Anna, and Samm Henshaw. Until then, check out “Fallin’ Back” and Fox’s 2021 mixtape, *Solomon*.
