

# Watch: The Internet On The Tonight Show

[youtube id="Qctyzjtkz6I"]The Internet made their *The Tonight Show* debut with a performance of "Come Over." Their set was made to look like a living room and Syd performed while sitting on a couch and then standing on a table. Steve Lacy took the spotlight for his guitar solo while the rest of the band played under dimmer light. The new album *Hive Mind* comes out July 20th.Â

# Christine And The Queens Perform Girlfriend On The Tonight Show With DÃ¢m-Funk

[youtube id="WHg0vb1dgp8"]Christine and the Queens were joined by DÃ¢m-Funk on *The Tonight Show* for a performance of "Girlfriend" with dancers. The French singer is prepping her sophomore album that has no title or release date yet. Frontwoman HÃ©loÃ¨se Letissier led the dancers around the stage and DÃ¢m-Funk briefly shared the stage with them before walking back to the band area to finish playing with The Roots. Christine and the Queens will be on tour in the fall.Â

## Luke Cage: Season 2 Trailer 2

[youtube id="08cI8SHLaLQ"]The second trailer for season 2 of *Luke Cage* stars Alfre Woodard in her role as Mariah Dillard the Queen Of Harlem. Woodard's character has to come face to face with theÂ new villain Bushmaster in her battle to have control of Harlem. Dillard's daughter Tilda appears and she is not happy with her mother's work. Misty Knight returns with a robotic arm and Luke Cage has his biggest challenge yet fighting Bushmaster. The whole trailer happens with The Fugees' "Ready Or Not" playing in the background. Season 2 of *Luke Cage* premieres June 22nd on Netflix.Â
