

Adi Oasis Shares Multiply Ahead Of Lotus Glow Album

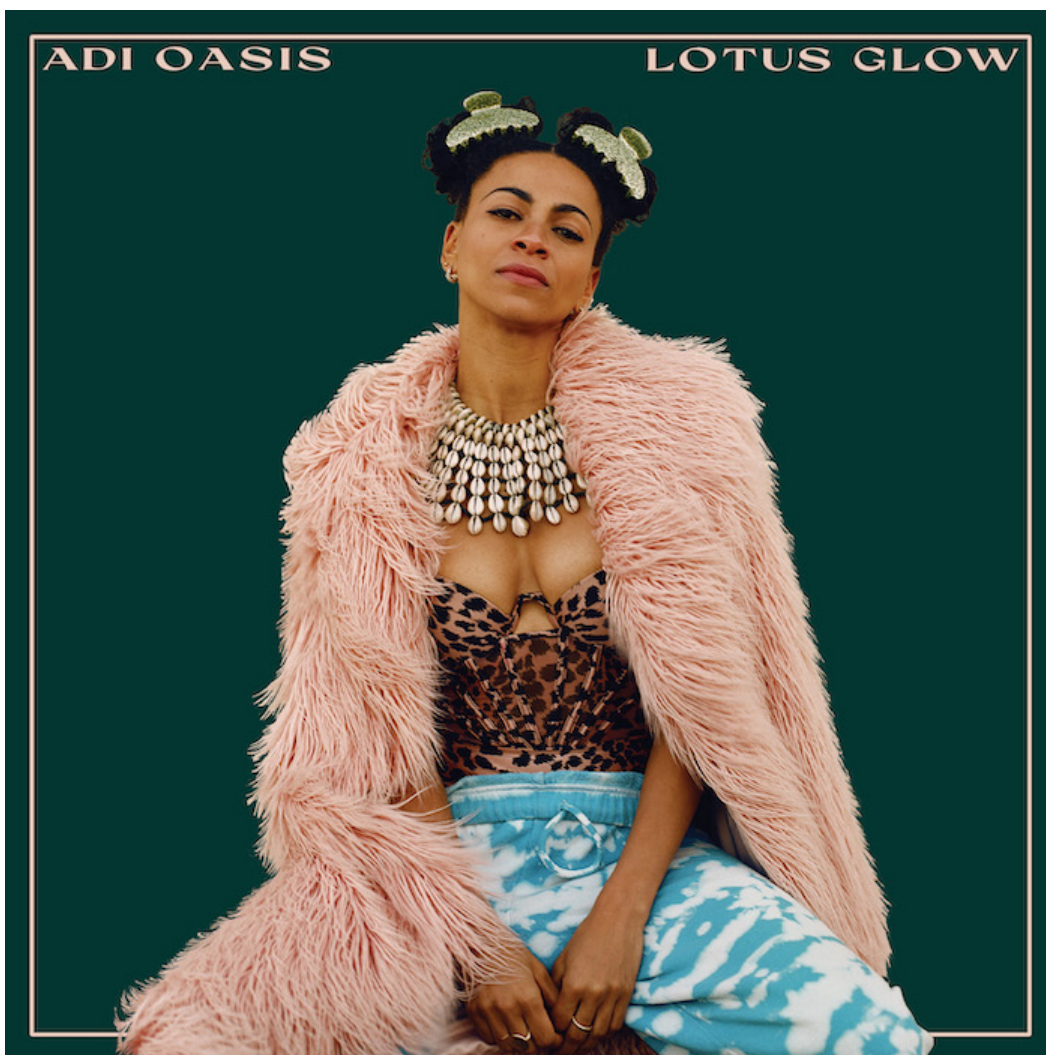

Credit : Clément Dezelus

Adi Oasis reveals the arrival date of her *Lotus Glow* debut album and shares the single “Multiply. The singer/songwriter/bass player changed her name in 2022 as she was formerly known as Adeline. The name change and the new album represent a peaceful place the artist has found after going through a reflective period. “Multiply” is a funky jam about a woman’s desire to make a baby once her hormones activate. She says,

“‘Multiply’ is about that very real thing that happens to many women when their hormones start saying ‘I want a baby. It can be purely hormonal, or desperately romantic. Sometimes it’s both. Of course, men say ‘I want to have your baby’ to

women all the time. But I wanted to flip the script, saying it from a position of power, but also from a place of vulnerability.”

The video for “Multiply” shows Oasis playing the bass and preening for the camera in between changing her costumes. *Lotus Glow* has songwriters KIRBY and Leven Kali, poet Jamila Woods and UK soul artist Aaron Taylor as guests. This album is also her first to be released on vinyl and there is a [pre-order](#) option. *Lotus Glow* comes out on March 3rd and her North American Tour starts on March 15th. **Adeline Releases ADI OASIS EP
& Video For Stages Feat.
KAMAUU**

Credit: Morgan Wiley

Soul and dance music chanteuse Adeline is back with her *ADI OASIS* EP and the video for “Stages” featuring KAMAUU. *ADI OASIS* is her fierce studio and stage persona in her complete artistic fullness. The EP is comprised of four previously released singles and three new songs. She explained in a statement what it felt like to make the EP,

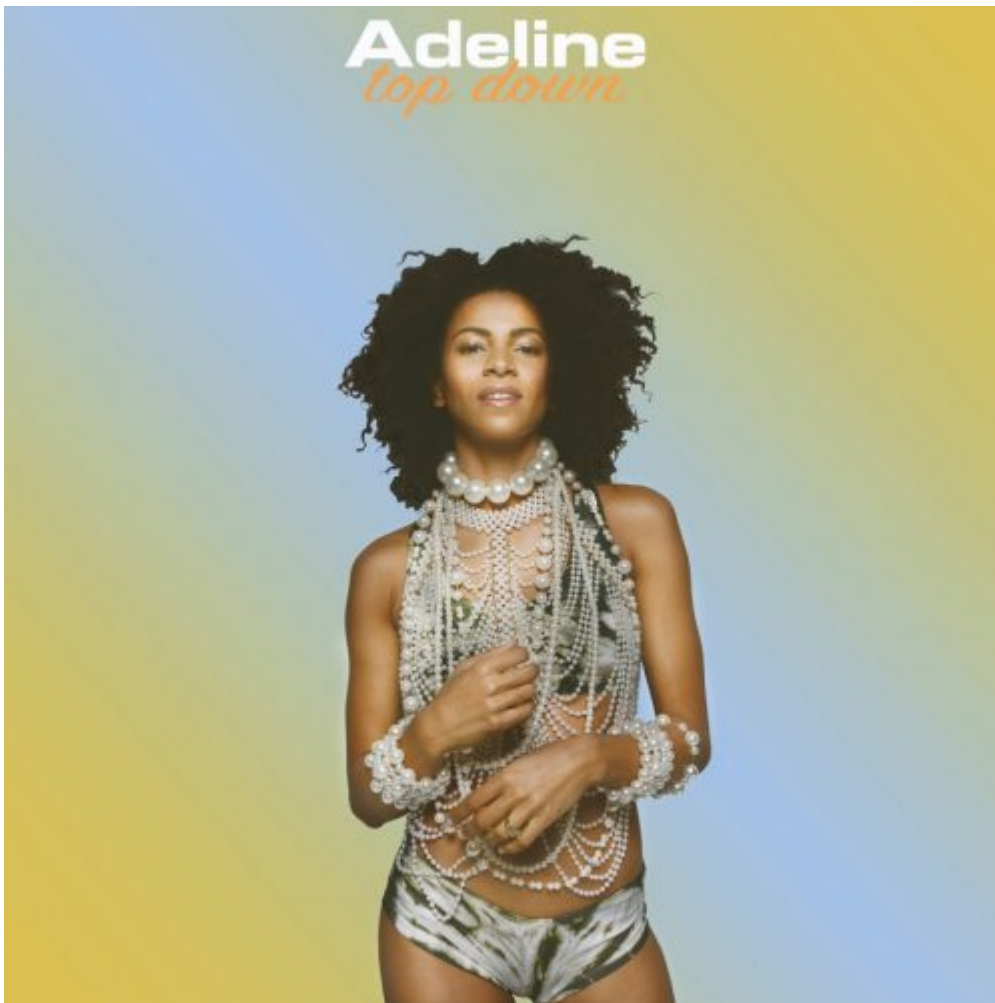

“Creating this EP during one of the weirdest times in our modern history – not just the pandemic, but also living through these difficult political times, global warming, struggle against racism, etc. – has brought to light a deeper meaning for what music is to me. Music is my oasis, the stage is my oasis, the studio is my oasis.”

Adeline’s buffed vocals leads ears into the 7-song soulful sanctum that should have a breakout hit with the mid-tempo dance of “Whisper My Name.” Her career anthem “Stages” finds her and KAMAUU having fun hanging out in Brooklyn as she alternates screen time playing with her band.Â

Listen: Adeline-Top Down

Singer-songwriter Adeline sings about exclusive love on her latest offering "Top Down." She steps away from her role as the lead singer of NYC dance outfit Escort to bring her second single this year following the release of "Before" a few months ago. The latter song is currently being used in a campaign for fashion brand La Ligne and Adeline is also featured on the [site](#). She performs at C'Mon Everybody in

Brooklyn tonight then heads out for tour stops in Los Angeles, Tokyo and Denver, Colorado. She released her self-titled debut [album](#) last year noted for its adherence to a classic house sound and '80s R&B.Â

Adeline's Before Gets Remixed

Transplanted Parisian Adeline released her eponymous debut album last year and revealed a penchant for '90s dance music and '80s R&B and funk. The result was an irresistible

introduction of high-energy that signaled the cyclical movement of a sound that is also being used by artists like Lizzo and The Internet. The singer, songwriter and bass player shares remixes to the single "Before" from *Adeline* that are meant for sweating and vertical body motion. *Before Remixed* comes out just as the Brooklyn resident gets ready to embark on a national tour next week. Tickets for the tour dates are on sale [here](#).Â
