

Seun Kuti Collabs With Adi Oasis For Love & Revolution

Credit: Kola Oshalusi

Seun Kuti collaborates with Adi Oasis for the Cinnamon version of "Love & Revolution." The single originally appeared on Kuti's *Heavier Yet (Lays The Crownless Head)* released last year. Oasis adds soulful conviction to the Afrobeat scenario inspired by Kuti's wife, Yetunde Kuti. The song is a celebration of the dual desire for love and change and will be included on the deluxe version of *HYLTCH*. Oasis was more than happy to lend her voice to the song. She says,

“I’m so honored to be included in this project. Seun and I met a decade ago at a show in Cleveland, and we’ve been following each other since. He’s a great human and one of the best performers out there. His energy shines bright and resonates through his music. I’m so happy that he chose me for this song in particular. ‘Love & Revolution’ talks about a woman with a strong will and a big heart. It celebrates the Divine feminine and shows its strengths. I couldn’t dream of a better subject to sing about.”

The deluxe version of *Heavier Yet (Lays The Crownless Head)* comes out in the spring. Kuti will go on a tour of the United States in April with dates in more than a dozen cities, including an appearance at Coachella. [Tickets](#) are on sale now.

Adi Oasis Shares Multiply Ahead Of Lotus Glow Album

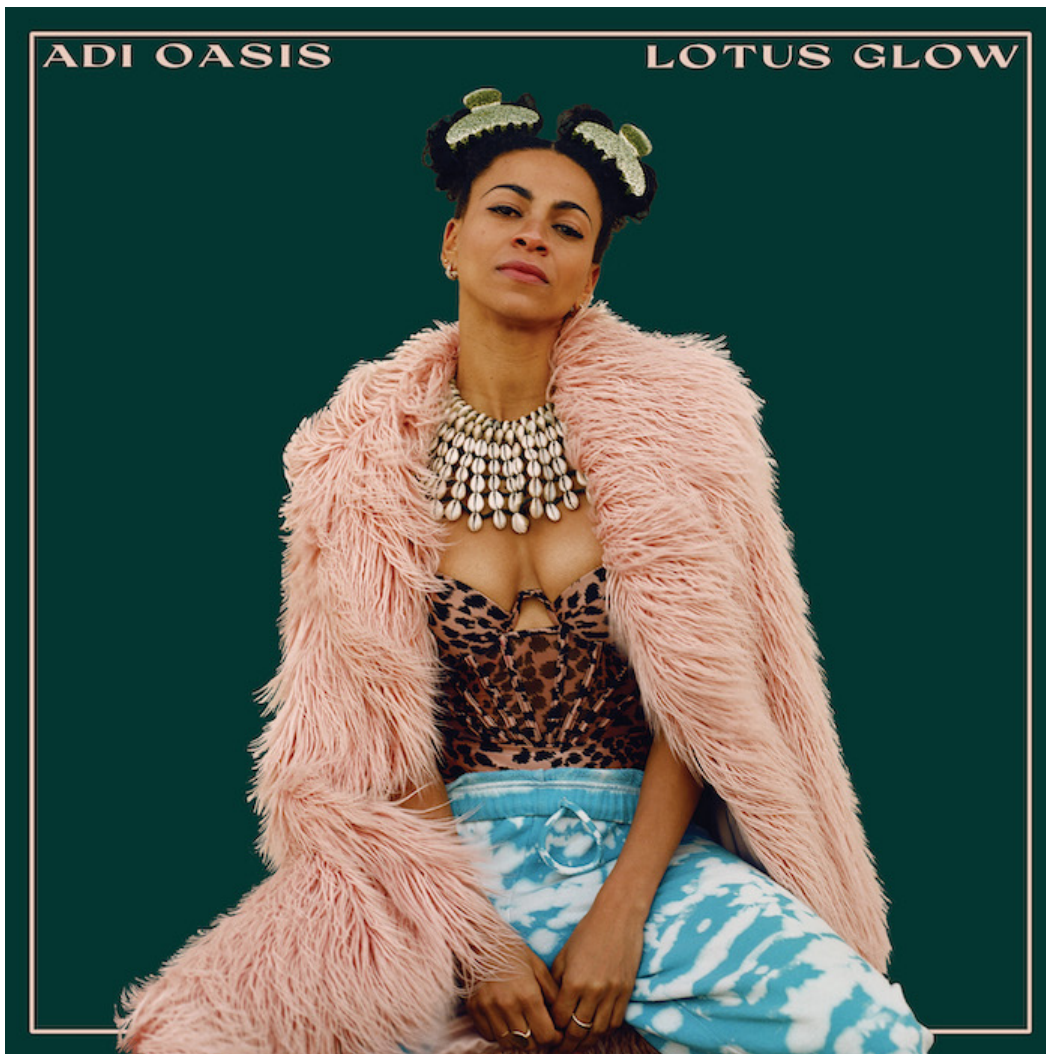

Credit : Clément Dezelus

Adi Oasis reveals the arrival date of her *Lotus Glow* debut album and shares the single “Multiply. The singer/songwriter/bass player changed her name in 2022 as she was formerly known as Adeline. The name change and the new album represent a peaceful place the artist has found after going through a reflective period. “Multiply” is a funky jam about a woman’s desire to make a baby once her hormones activate. She says,

“‘Multiply’ is about that very real thing that happens to many women when their hormones start saying ‘I want a baby. It can be purely hormonal, or desperately romantic. Sometimes it’s both. Of course, men say ‘I want to have your baby’ to women all the time. But I wanted to flip the script, saying it from a position of power, but also from a place of vulnerability.”

The video for “Multiply” shows Oasis playing the bass and

preening for the camera in between changing her costumes. *Lotus Glow* has songwriters KIRBY and Leven Kali, poet Jamila Woods and UK soul artist Aaron Taylor as guests. This album is also her first to be released on vinyl and there is a [pre-order](#) option. *Lotus Glow* comes out on March 3rd and her North American Tour starts on March 15th. Tickets are on sale from her [website](#).
