

The Prince Podcast With Andre Cymone

Michael Dean interviewed Andre Cymone for The Prince Podcast and they discuss Andre's new album [The Stone](#), early days with Prince and life in general.

Andre Cymone The Stone (Album Stream)

Andre Cymone's *The Stone* is his first recording in 25 years. The last time he was here he was making nu-wave music and co-writing R&B/pop hits with Jody Watley. *The Stone* is guitar-heavy rock but if you listen closely you can still hear the funk.

Andre Cymone-Live Life

"Live Life" is a preview of Andre Cymone's classic-rock

oriented fourth album *The Stone*. Cymone's return to music comes years after being Prince's first bass player, 3 funk albums and co-writing songs with Jody Watley. He supported Barack Obama's reelection with the song "America" in 2012 and last year he shared a song dedicated to his mother on Twitter. *The Stone* will be released February 18th through [Pledge Music](#).

Andre Cymone-America

[America by Andr  Cymone](#)

Andre Cymone just released "America" to support Barack Obama's run for the presidency again as all donations will go to Obama's campaign. It's so nice to finally hear from the man that was with Prince before the start of it all that the song could be supporting an alien for a candidate and Cymone fans would buy it. Hopefully this is the start of Cymone's re-emergence as a solo artist and not a one-off deal.
