

# Arlo Parks Announces My Soft Machine Album

Arlo Parks is returning with her sophomore album *My Soft Machine* in the spring. Today she shares the video for “Weightless” which is the first single. Marc Oller directed the clip that finds Parks basically cheating death. She made a statement about “Weightless”:

*“‘Weightless’” surrounds the painful experience of caring deeply about someone who only gives you tiny breadcrumbs of affection. It’s about suddenly realizing that a person has dulled your edges and embarking on the slow journey back to being a brighter version of yourself.”*

Parks also shared some of the concepts behind *My Soft Machine* including substance abuse amongst her peers, anxiety and how films are the “soft machine” lens that people want to use to view life. The British pop singer’s *Collapsed In Sunbeams* debut established her presence and received international accolades. *My Soft Machine* comes out May 26th.
