

Introducing BrotherAli.com

Brother Ali New MP3 + Teaser Video

Brother Ali's new record, *Us*, is out September 22nd on Rhymesayers Entertainment. Watch the well received teaser video for the title track [here](#).

A profound personal glimpse into a vulnerability seldom seen or heard in music, *Us* touches on the strengths and flaws of the human condition, exploring drug abuse, divorce, homophobia and many more topics that most people are scared to touch in their own lives, much less on an album for the world to see. As with previous endeavors, the beats here are courtesy of Ant, whose production work seems to be getting more soulful and lush by the minute. The guest appearances only accentuate Brother Ali's strengths, with Chuck D, Freeway, Joell Ortiz and Stokley Williams of Mint Condition making strong appearances.
