

Buddy Releases Kaytranada-Produced Ocean & Montana EP & Video For Find Me

[youtube id="NWTNbDkaIAQ"] Compton rapper Buddy just released his five-song EP *Ocean and Montana*. Kaytranada produced the project that's named after the cross streets of Buddy's first apartment. Buddy's video for "Find Me" is the first from *Ocean and Montana* and he travels through the clouds in a Crown Victoria. Despite the darker content of "Find Me" Buddy describes *Ocean and Montana* as having a "beach feel." *Ocean and Montana* can be streamed on Buddy's [Soundcloud](#) page.
