

Chynna Rogers Shares Practice From New EP

Philadelphia rapper Chynna Rogers shared her song “Practice” today from her *Music 2 Die 2* EP. Her first single was “Seasonal Depression” produced by Heaven In Stereo and she hopes the EP will:

"Hopefully [listeners] leave a lil more confused than they arrived, being as it's only 4 songs, I just want to get my versatility and creativity out in the smallest amount of space. Usually being understood is my priority, but seeing as though that's pretty impossible I'd rather you learn about how I view certain life situations by the way I've chosen to express myself lyrically."

Music 2 Die 2 will be released September 29th on Honeymoon and she will go on a tour of the United States days before the release.
