

Posthumous Album Coming From Chynna

It is one year and three months after Chynna's passing and her last work *drug opera* will be released as she wished. The rapper from Philadelphia was working on the album when she died and her family is making sure the vision she had is shared with her fans. Today the first preview of the project is the gloomy "seasonal depression pt. 2." The music is a direct line to the things going on in Chynna's inner world. August 19th would have been her 27th birthday and *drug opera* will come out exactly one day after it.Â

She soon fulfilled her rap aspiration and started working with late producer A\$AP Yams. The meeting led to several collaborations and performances with ASAP Mob. As a solo artist, she released three EPs, including *I'm Not Here*, *This Isn't Happening* and *Music 2 Die 2*. She became popular online with the release of her single "Glen Coco." Chynna Celebrates Sobriety With Her *Ninety* EP

Brooklyn rapper Chynna celebrates 90 days of sobriety with her *Ninety* EP. Originally from Philadelphia, Chynna worked with various producers on the project that was inspired by science fiction and psychedelic rock. She had this to say about *Ninety*, "This project sums up my last two years. They got pretty dark and still amazingly spiritual. I tapped into parts of myself I otherwise would never have seen. Not to say you should hang out in that part of yourself often, but get familiar with it. Conceptually, I allowed my influences to guide me without sounding anything like them. I tuned back into my favorite psychedelic rock albums from the zombies down to blue oyster cult. Especially them. Visually, I tapped in just as much on some super sci-fi fantasy conspiracy shit. That's just what I'm into on my day to day. With the songs themselves, I wanted to incorporate the producers I really believe I got the fuckin gas and more importantly the synergy you need to make something special. It's last minute. It's honest. It's lit. Day 90."
