“Say You Love Me, One More Time” is from D.J.Rogers’s *On The Road Again* album from 1976. The Los Angeles bred singer/songwriter and multi-instrumentalist is known for his piano ballad, “Say You Love Me” which was later covered by Natalie Cole and Jennifer Holiday. He recorded three albums for RCA in the 70’s and released his last album independently in 1980. Rogers wasn’t a big success in the industry but he’s a star of Europe’s Northern Soul scene and “Say You Love Me One More Time” introduced him to younger generations via samples by Blackstreet, YG and Big Sean.
