

David Bray & Friends: Crowded Isolation Part 1

Canadian songwriter David Bray has collaborated with a variety of musical friends to bring the *Crowded Isolation* trilogy to life. The title comes from Bray's intent to look at the challenges of urban living. "Crowded Isolation Part 1" is from the second album, *Crowded Isolation*, and it features vocalist Lorraine Reid. Bray said that the songs are from the perspective of the people who struggle to live in the urban world and others who observe those hectic lives.
