

Skratch DJ Legend Qbert Launches First Video Based Online DJ School Today

DJ Qbert and ArtistWork's collaboration firmly reaches beyond the technology to unify the field of Skratch DJs to one central place, the QbertSkratchUniversity.com.

"It's cool that Skratching has so many fans around the world and we can all be in one place now and learn from each other no matter where we live." – DJ Qbert

"What I enjoy most is the ability to download Qbert's practice beats in the "BEATS" section instantaneously to train with on my own time. Kutting it up for hours upon hours of never ending practice time. The exclusive music that you'll be able to download and to train to is worth the enrollment at the school on its own! " – Yogafrog
