Duran Duran-Pressure Off Featuring Janelle Monae & Nile Rodgers

[youtube id="l2SZQANH0Zc"]

Duran Duran and Nile Rodgers work together again on the band's new single "Pressure Off." The song is the first single from their upcoming 14th studio album, *Paper Gods* and Janelle Monae provides backing vocals. The '80's pop icons previously worked with Rodgers on their "Wild Boys" and "The Reflex" singles and he co-produced their 1986 Notorious album. Paper Gods comes out September 18th but can be pre-ordered now from Duran Duran's [official site](#). The band is scheduled to do a month-long tour of the United States this summer.
