

Listen: Eternia & Rel McCoy - The Story Of Us Feat. Mr. Lif & Elikì Sol

Eternia and Mr. Lif share the history of their romance on “The Story Of Us.” Rel McCoy produced the calming beats and Elikì provides the backing vocals. The song is from Eternia and Rel McCoy’s *FREE* album coming out next week. Mr. Lif and Eternia reflect back on their lives up until the day they met and eventually became a married couple. Their collaboration is rare one as most rappers still don’t rap about love and most duets are character enactments. The relaxed ambiance is a reminder that hip-hop is still a place to talk about love.Â

FREE will have guest appearances from Shad, SHEAL, Wordsworth and more. The album officially comes out September 24th but can be [pre-ordered](#) now.Â
