Houston native Eros is starting the summer with his new single “Starshine” that features Danish singer Nanna.B’s fellow R&B artist Bobby Earth. Eros plays the bass and gives a breathy delivery on the song that has the calm of shimmering water inside the romantic vibe. The lyrics are all about a couple committed to making their relationship work. “Starshine” follows Eros’ 2017 [“Mu’Dat”](#) single and *Stratus* EP.
