

# Diddy & Felix Da Housecat Lectro Black Mixtape Download

Why??? This is the same guy behind Mary, Biggie, Total, etc. He could've borrowed anyone to add some soul to this but if he wanted electro why not [Juan Atkins](#), [Jeff Mills](#), [Derrick May](#), [Kevin Saunderson](#) or [Green Velvet](#)? Diddy is a dancer so this is inexcusable. Diddy is one of the only people on the planet that could bring house music back and instead he does this suburban-friendly pop with a known dance producer. He needs to be for real and go get [Cajmere](#), [Dajae](#), [Kenny Bobien](#), [Kerri Chandler](#), [Steve "Silk" Hurley](#), or [Masters At Work](#) etc. and call it a [day](#).
