Today Jamie Hewlett posted footage of him and Damon Albarn working hard on the next Gorillaz album. Hewlett and Albarn's virtual band's last release was 2011's *The Fall*. Albarn has

released his Everyday Robots solo record and Blur's *Magic Whip* since then and he described the process of the new Gorillaz album to Rolling Stone last year: "I'm in the very early days on a new Gorillaz record. So far, it's really fast, and it's got quite a lot of energy. I've been stuck on piano, somewhere off Broadway, for years now. I want to go somewhere completely opposite of that."
