

Jalen Ngonda Drops If You Don't Want My Love

Listen to Jalen Ngonda conjure up memories of Prince and Russell Thompkins Jr. with his falsetto-driven “If You Don’t Want My Love.” The prominent ’60s and ’70s influences can be traced back to the D.C. native’s father who introduced him to the Motown catalog as a kid. “If You Don’t Want My Love” is the Daptone artist’s third release coming after his two-sided debut single “What A Difference She Made” and “Just Like You Used To.” Ngonda just wrapped up his North American tour and he is getting ready for the European leg that starts in April.
