

# Throwback: Jamiroquai-Little L

[youtube id="1hHSH9sJUEo"]Jamiroquai's "Little L" was the first single from their fifth studio album *A Funk Odyssey*. The funk and disco styled song was another win for their catalog of dance-oriented music. Lead singer Jay Kay wrote "Little L" with late keyboardist Toby Smith wrote the song about Kay breaking up with a girlfriend because of his cocaine use. The video features Kay at the club with mirrored balls and pretty woman surrounding him. A song about the end of relationship sounded like a party and had a visual to support the festive vibe. "Little L" was another Jamiroquai song to receive a noteworthy remix for clubs. New Jersey house music veterans Blaze retooled "Little L" and stretched out the groove with handclaps, synthesizer and congas. *A Funk Odyssey* was another

platinum album that added to Jamiroquai's status as the third-most successful act in the U.K. during the '90s. They released their eighth album, *Automaton* in 2018 and had their first United States performance in 13 years at Coachella where they were joined onstage by Snoop Dogg.Â

[youtube id="NYij0KaHhzI"] Jamiroquai's *Automaton* is their first album since 2010's *Rock Dust Light Star* and fans feel that it stays true to their love of disco and funk. "Superfresh" is classic Jamiroquai for that very reason and the video is a personalized kaleidoscope with alternating shots of the starring woman and Jay Kay. The band will tour Europe this summer and fall but no announcement has been made about dates in the US.
