

# K-Hand Boiler Room Detroit Set

[youtube id="fEucYrelTcY"] K-Hand became the first woman to have a house/techno label when she started Acacia Records in 1990. Since then she has released 7 studio albums and dozens of singles under her various monikers as well as music from other dance artists. This year she released her [Intuition](#) EP and it is a three-song collection of her pure sound including a Tommy Largo remix of "Everybody." Last month she delivered her first Boiler Room set in her Detroit hometown and you can watch The First Lady of Detroit Techno in the above video and click [here](#) for the full tracklisting.
