

The Free Nationals Release New Song On Sight Feat. JID, Kadhja Bonet & MIKNNNA

[youtube id="DmTdRNQV4yw"]The Free Nationals are known for being anderson.paak's band but they have been slowly sharing their own musical identity. This past June they delivered "Time" which has the first posthumous words heard from Mac Miller and last year they released "Beauty & Essex" featuring Daniel Caesar and Unknown Mortal Orchestra. ["On Sight"](#) featuring rapper J.I.D., R&B singer Kadhja Bonet and electronic duo MIKNNNA is a piece of infectious psychedelic soul about feeling love after the first look at someone. The band announced last year they were preparing their debut album but a release date has not been revealed.Â
