

# Kevin Ross Shares Show & Prove

Kevin Ross promises a sincere courtship on his single “Show & Prove.” Ross’s song is the antidote to all of the letdowns so many have experienced pursuing a romance. His words take the pace of a rap triplet beat in the intro as he proclaims his honesty and requests to see his lady’s body in 3D. The intensity of his plea is the emotion that makes “Show & Prove” a bona fide addition to present and future love-centered playlists. Ross strikes a balance between being blunt and smooth in his description of intimacy and the approach is a reminder of how love is a combination of physical and ethereal worlds. Fans in Dallas, Texas can still buy [tickets](#) to his show on March 18th at Bruton Theatre with Leela James and Sentury.
