Kriswontwo-Woke Featuring Liv Lykke

Kriswontwo's "Woke" featuring Liv Lykke is ritual expressed with fusion styled jazz. Lykke's vocals are mapped into a background chorus that's mystical and non-linear. Kriswontwo's [Ceremoni](#) debut was just released on Georgia Anne Muldrow and Dudley Perkins's Some0thaShip Connect.

Kriswontwo's "Love, Need You" has an official video and it's

guided by Rumi's poem *The Dream That Must Be Interpreted*. There's no appearance of Omar but instead a dreamer who awakens from fantastic dreams he wants to believe in so badly that he's put back to sleep by a friend who is a healer. Kriswontwo's *Ceremoni* comes out on Some0thaShip Connect September 14th.

KrisWonTwo - Love Need You Featuring Omar

Danish producer Kriswontwo collaborates with Omar on the dubstep-influenced "Love, Need You." The song will be on Kriswontwo's debut album *CEREMONI* coming out September 14th on Some0thaShip Connect. On working with Omar KrisWonTwo had this to say: "I asked Omar if I could play him some music—he completely felt it. When the artist arrived, Omar had written and recorded this whole track, and we went on to lace the chorus that was intended to be recorded that day."
