

Mellowhype - 64

[youtube]sWMOEVdXR2o[/youtube]

Hodgy Beats and Left Brain of Odd Future are Mellowhype. Many spectators have labeled their music anti-Christian and demonic and their fans call them pioneers. But the whole Rob Zombie take on hip-hop was happening back in 1989 with Esham. Even The Gravediggaz got in on the horrorcore act. Mellowhype's album *Blackenedwhite* will be out July 12th.
