Lewis City is the soul/house duo of Danny J. Lewis and Mike City and [Where Is The Soul](#) is their 13-song album of the classic house sound. Lewis is a house veteran who has released music on iconic house labels like Strictly Rhythm, Defected and 4th Floor. City is known for being behind some of the most known R&B singles of the '90's and 2000's from Carl Thomas, Brandy, Sunshine Anderson and others. But most people don't know that his professional surname comes from his love of legendary Chicago house group, Ten City. *Where Is The Soul* is Lewis City paying homage to the original house sound without any contemporary gimmicks.
