

Listen: Lucky Daye-Candydrip Album Stream

Lucky Daye's sophomore album *Candydrip* was released today. He has company from Lil Durk, Smino and Chiiild who all have features on the 17-song project. The singer-songwriter had given the first sample sounds of the album with the previous drop of "NWA," "Over" and "Candy Drip." It was 2019 when his *Painted* debut came out. He kept his fans entertained with the Grammy-nominated *Table For Two* EP in 2021 as he finished *Candydrip*. Daye's carefree soul is floaty and romantic but comes down to earth in time to make his proclamations of love believable. The Candy Drip [Tour](#) will kick off in Portland, Oregon on March 18th.

Lucky Daye Dazzles In Video For Over

Lucky Daye shines brightly in his video for "Over." The flipping of Musiq's "Halfcrazy" is a brilliant tribute to the singer and solid construction of Daye's current single. The visuals pop with crisp cinematography that compliments everyone in the frame. Jordyn Woods stars as his love interest and they make a stunning couple for the screen. Daye is no less interesting when he becomes the sole subject changing into several different looks. So far, 2021 is one of his biggest years with the release of his *Table For Two* EP, a cover of Marvin Gaye's "Mercy Mercy Me (The Ecology)", being named the new addition to Earth, Wind & Fire and the video for

his newest single “Over.” Fans in the New York area can catch his show at the [Lights On Festival](#) in Brooklyn being curated by H.E.R. on October 21st.Â

Earth, Wind & Fire Share Debut Single With Lucky Daye You Want My Love

Earth, Wind & Fire debut their first song with singer Lucky Daye. Babyface produced “You Want My Love” which is an update of “Can’t Hide Love” from the group’s 1975 *Gratitude* album. Daye’s vocals meld into the classic that still keeps Maurice White’s voice. The layers are complementary and Daye’s contribution is a supple addition to a sacred favorite. Their collaboration poses the question of what will a whole album sound like with the new lineup?Â
