

MF D00M's Special Herbs Re-Released & Action Figure

MF D00M's *Special Herbs* collection has been re-released on colored vinyl and there is new merchandise, including a Super7 ReAction figure. D00M's Metalface Records and Rhymesayers Entertainment partnered to re-release the series of albums that are also available on CD and cassette. D00M originally released the instrumentals under his Metal Fingers alias and the re-release has quirky packaging, with the vinyl having jackets that look like rolling papers and custom cases for the

cassettes. The merchandise capsule has t-shirts, sweatshirts, a rolling tray, papers, and a grinder. Everything is available at gasdrawls.com. Last year the 20th anniversary edition of *MM...Food* was released and celebrated with an orchestral tribute to DOOM at Tyler, The Creator's Camp Flog Gnaw Festival and it featured Erykah Badu and Madlib and was conducted by Miguel Atwood-Ferguson.

MF D00M's Estate & Madlib Launching Large-Sized Madvillian Collectible Figure

MF D00M's estate, Madlib, and Super7 are launching a new Madvillian vinyl action figure along with exclusive merchandise and a clothing capsule. The release of the figure and merchandise is part of the 20th-anniversary celebration of

the Madlib and MF D00M collaboration, *Madvillliany*. The collectible figure and capsule will go on sale Monday, August 5 at 11 AM ET until Wednesday, August 7 at 11:59 PM via [Gasdrawls.com](https://gasdrawls.com). The new Madvillian figure is large and inspired by the duo's animated video for "All Caps." The estate released a smaller-sized MF D00M figure last year. Artist James Reitano, who worked on the original artwork for the Madvillian project, updated the artwork for the supersized figure. The clothing includes t-shirts, sweatshirts, caps, and more. The late rapper, known for his ever-present mask, has been seriously missed since his passing in 2020.

Launched & Viktor Vaughn Vaudeville Villain Vinyl Reissued

MF D00M's estate has partnered with Rhymesayers Entertainment and Super7 to release an MF D00M action figure. The green hoodie-wearing and microphone-holding toy and the new Operation: Doomsday-themed clothing line is available on the gasdrawls.com website. The estate also plans to reissue D00M's

Vaudeville Villain album recorded under his Viktor Vaughn alias on vinyl. DOOM's Vaughn persona wrote the album from the perspective of owning a broken time machine stuck in New York City during the '90s. The reissue is on silver vinyl with a 12" gatefold jacket and can be pre-ordered now before it officially drops on August 18th. DOOM's legend continues to grow since his passing in 2020 and the *Super What?* collaboration album with Czarface was his first posthumous release in 2021.

**KMD's Black Bastards Red
Vinyl Release On 30th
Anniversary**

KMD's *Black Bastards* 30th anniversary is being observed with a red vinyl release and new packaging. The group's sophomore album has become a legendary tale in the rise of MF DOOM. At the time he was rapping as Zev Lov x with his brother Subroc. Elektra would end up shelving KMD's second album because of the cover art depicting a Sambo figure being lynched. Subroc was killed in a car accident before the album was done and Zev Lov X disappeared to re-emerge as MF DOOM in 1999 with his *Operation: Doomsday* debut. *Black Bastards* was released in 2000 to critical acclaim six years after missing its original release date of 1994. The album will be available in black vinyl as well as red and DOOM's *Operation: Doomsday* is also scheduled for redistribution. Both titles will be available on March 31st and MF DOOM's estate is offering exclusive KMD merchandise at gasdrawls.com.
