

Exclusive And FREE Come Get Rihanna App Is Now Available At The Ovi Store By Nokia

Nokia launched the exclusive Rihanna App. Bringing fans closer to Rihanna, the new App delivers news, music, photos and exclusive video content direct to Nokia's entertainment-rich handsets including the Nokia N97, Nokia X6 and Nokia 5800 XpressMusic.

Video content available through the App includes live performance videos from Rihanna's album launch event. Additionally, fans can access music samples, a Rihanna biography and photo library, and, when available, information on Rihanna's forthcoming 2010 tour. The App content is unavailable elsewhere and is regularly updated for fans.

The App also provides a direct link to the Nokia Music Store where fans can download exclusive album content including a Nokia bonus track, Hole In My Head, written and produced by Justin Timberlake.

In addition, an exclusive Donni Hotwheels remix of Rihanna's smash single, Russian Roulette, is also available to those who download her album, Rated R, exclusively via the Nokia Music Store.

On November 16, Rihanna performed tracks from her new album exclusively with Nokia. With a set list including former number ones Umbrella and Disturbia, Rihanna's performance was streamed live and globally to her fans on every continent. The show included live Twitter commentary from music fans across the world. The Rihanna App and exclusive video content from the show is now live at www.nokia.com/rihanna.
