Oh No's tribute to Rudy Ray Moore is a song from his *Ohnomite* album that is available on Stones Throw. There will be 5-inch vinyl pieces of the ["3 Dollar"](#) single on sale June 11th.

Oh No Returns With Ohnomite

Oh No (born Michael Jackson; younger brother of Madlib and son of singer Otis Jackson) was granted unprecedented access to the Rudy Ray Moore / Dolemite audio archives and given free rein to sample his way through the classic-but-absolutely-filthy catalog. He was able to use legendary material from The Human Tornado, Petey Wheatstraw, the Dolemite Soundtrack and more, plus a multitude of previously unreleased and alternate acapellas and instrumentals. The end result is *Ohnomite*, a 19 track album with guest spots from the likes of MF Doom, Evidence, Phife Dawg, The Alchemist, Erick Sermon, Rapper Pooh, MED, Guilty Simpson, Roc Marciano, Sticky Fingaz, Chino XL, Roc C, Prozack Turner, Termanology, Frank Nitt and more.

The first leak from Ohnomite is ["Whoop Ass" f/Sticky Fingaz](#)
