

Oleta Adams Brings New Album On the Road

New York, NY (May 7, 2009) – Soulful singer Oleta Adams is taking music from her new album *Let's Stay Here* to fans across the U.S. *Let's Stay Here* released on April 21, 2009 on E1 music and marks Adams' first album of Pop/Soul material since 2001. Oleta's fans, who flock to her sold-out shows all over the U.S. , have been waiting a long time for *Let's Stay Here*, and it delivers all the way. It's a new statement of pure soul, ten messages of hope and love for our tough times.

Followers of Oleta Adams often refer to her as the ONLY singer. Throughout her long career, which began with Oprah Winfrey's endorsement of the immortal "Get Here," Oleta has earned her devoted fan base by staying with the essentials: honest, soulful vocals, unforgettable songs, and uplifting arrangements. *Let's Stay Here* is prime Oleta: she delivers each song's message with grace, clarity, and quiet power, whether it's her own composition or a classic cover, such as the version of Nina Simone's "Feelin' Good" that was central to the 2007-8 Buick campaign.

Raised with gospel music, Adams released two solo albums before getting discovered by pop group Tears For Fears in the late '80s. After touring with and opening for the group, her solo career took off in 1990 with the album *Circle of One*, which peaked at #1 in the U.K. Adams has released six more albums since, and her cover of Brenda Russell's track "Get Here" earned her the first of many Grammy nominations.
