[youtube id="1Ax9pDTPJYs"] Tameca Jones released her [Naked](#) EP last year and today she debuts her video for "Sandman." Jones and her paramour spend romantic times together before he disappears and she wakes up from her dream. The Austin, Texas singer's soul and blues combined sensibilities made her an in-demand local performer and earned her an appearance on Gary Clark Jr.'s *The Story Of Sonny Boy Slim*. Jones is finding her way as a solo artist and this year she will be an official artist at the SXSW Music Festival.
