

Watch: Vina Love's Neon Video For Air

[youtube id="TokRzTr6at8"] Vina Love is building her presence in the music world as she works on her debut EP. The video for "Air" is a neon-colored affair against a black backdrop with Love's figure jumping out of the screen because of the contrast. Love co-directed the video with Picaso for the self-penned song. The New York native is finding her way as an artist and she's had the advantage of having the legendary DJ Kid Capri for a father. He is helping her navigate the music business and he is producing a remix of "Air" with Ted Smooth. A well-known rapper is also on the remix but will remain secret until the actual release. Vina Love recently talked with Sway about her music and you can see the interview [here](#).
