## Ta-ku & Wafia-Meet In The

# Middle

Australian producer Ta-ku and fellow native singer Wafia are releasing their [\(m\)edian](#) EP on June 24th. "Meet In The Middle" is from [\(m\)edian](#) and it is a streamlined, electronic R&B that finds both of them singing about the value of being in a romantic partnership. Ta-ku's reputation has grown with his output of official remixes for the likes of Childish Gambino and an unusual collaboration with Jaden Smith. His *Songs To Make Up To* EP also grew his following. Wafia is also from Australia and is building her name as a budding R&B singer who already received millions of plays for her cover of Mario's "Let Me Love You" and her breakout single, "Heartburn."
